Open educational resources (OER) are teaching, learning, and research materials in any medium—digital or otherwise—that reside in the public domain or have been released under an open license that permits no-cost access, use, adaptation, and redistribution by others with no or limited restrictions (Hewlett Foundation, 2018).

Dear Colleagues,

Welcome to the first annual Illinois Community Colleges Summit on Open Educational Resources. The focus of this meeting is state-wide collaboration. We hope that our coming together today to discuss OER as a tool to increase access to quality education and to improve student success will be the first of many conversations. Today is about spending time with like-minded colleagues, finding our peers, and recognizing that the work of education takes place not only in the classroom. Student success is an all-college effort. In our great state, each college looks to the others for ideas and support. Success at one community college is an achievement for the whole state!

Today's Summit attendees will learn about the OER movement, how OER initiatives have been implemented at community colleges across the country, and how to drive adoption of open resources in our institutions. In the afternoon, peer groups will get together with our esteemed experts to drill down into how we as individuals can support OER adoption.

We hope that you enjoy your time together today. We'd like to thank the generous sponsors of this program: The College of DuPage Foundation, Illinois Community Colleges Online, The College of Lake County, and the College of DuPage.

Warm Regards,

Denise Cote, College of DuPage
Jennifer McIntosh, College of DuPage
Page Wolf, College of Lake County

SPEAKER BIOS

**Keynote Speaker: Lisa Young, Ph.D.,
Maricopa Community College System**

Lisa is a life-long learner, technology geek, and adventurer. Her pioneering spirit not only applies travel and outdoor exploration, but also to her teaching. For 15 years, Dr. Young taught hydrology by using the landscape to help her students understand water resources. Through her desire to meet instructional needs with innovation, Dr.

Young mixed online classes with outdoor field classes in which students hiked to sample water. While teaching hydrology Lisa enhanced her teaching skills by earning a M.Ed. in Learning and Instructional Technology and a Ph.D. in Instructional Design for Online Learning. She currently supports faculty in their teaching adventures by serving as the Faculty Director of the Center for Teaching and Learning at Scottsdale Community College. Lisa has ventured into the OER frontier at Maricopa Community Colleges which has saved students over \$10 million in course materials costs over the last six years. She is currently on sabbatical delving into big data and predictive analytics and their use in higher education.

**Ms. Una Daly, Community College Consortium
for Open Educational Resources (CCCOER)**

Una Daly is the director of the CCCOER, a division of the global Open Education Consortium. CCCOER is the community of practice for Achieving the Dream's OER Degree Initiative, the largest nationwide initiative in the U.S. with 38 colleges in 13 states. Previously, Una served as the OER Library Services Manager for the California

Open Online Library (COOL4Ed), a repository of low-cost, peer-reviewed open textbooks for the top 50 college courses. Una was also the director of College Open Textbooks and the ePortfolio Coordinator at the California Virtual Campus and Foothill College where she taught in the Computer Technology Information Systems department. Una holds a Masters Degree in Teaching and Learning with Technology and an @One Online Teaching Certificate. Her initial career was in the computer industry where she was a software engineer and manager at Apple, 3Com Corporation, and Motorola.

Ms. Nicole Finkbeiner, Rice University

Nicole is the Director of Institutional Relations for Rice University's free textbook initiative, OpenStax, where she founded and runs the nationally-recognized Institutional Partner Program. She also coaches colleges and universities to effectively encourage faculty adoptions of Open Educational Resources (OER) to promote student success and faculty academic freedom. A graduate of Kellogg Community College, Western Michigan University, and Michigan State University, she worked in college relations for community colleges prior to joining OpenStax. When not promoting OER, Nicole fills her time working on civil rights issues, traveling, reading, staying healthy, and dragging her friends and family to random cultural events

Ms. Amy Hofer, Linn-Benton Community College / Open Education Consortium
